WELCOME FROM THE BSGAR PRESIDENT

Welcome to Bath

I am delighted to welcome you to Bath for the 22nd Annual Meeting of the British Society of Gastrointestinal and Abdominal Radiology. Those with long memories will remember holding our annual meeting here in 2004 and I was keen to bring the meeting back to the South West once again.

We have a varied and exciting programme and, for the first time, have a parallel stream which will enable a whole session of interventional topics to be covered to satisfy the interventionally minded. Many thanks to Professor Laasch for organizing this session.

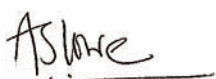

Building on the success of the scientific session introduced last year at the joint meeting in Liverpool, we have invited oral presentations of the best original scientific work submitted to compete for the new 'Clive Bartram' prize. In addition, there are some interesting poster displays around the conference venue to keep you occupied during the breaks.

I am thrilled that Dr Andrea Phillips has agreed to give the 2020 Richard Farrow Memorial Lecture. It is timely that we are going to hear about what artificial intelligence has to offer us as we enter a new era in diagnostic imaging. Thank you to all our sponsors for their valued support, without which this meeting would not be possible. Please do try and make some time to visit the stands during the breaks.

Dr Huw Roach has worked closely with Nikki Lee from Creative Conferences and the whole of the BSGAR committee to make this a truly memorable event, and I would like to thank Huw, Nikki and the rest of the Creative Conference Team for their fantastic input to this meeting.

Finally, I would like to thank the indispensable Liz Jones and all the BSGAR committee for their enterprise, hard work, enthusiasm and for their support over the past year. We have seen some really exciting developments in our society over the past two years and know that more will follow in the capable hands of Stuart Taylor.

Have a great meeting!

Dr Andy Lowe

WELCOME FROM THE BSGAR MEETING PRESIDENT

A very warm welcome to the West Country and to the beautiful, historic city of Bath, a UNESCO World Heritage site.

It is a great honour for me to be the Local President for the BSGAR 2020 Annual Meeting. It has been a privilege to work alongside the BSGAR Committee, Liz and also Nikki and the Creative Conferences team in preparing this year's conference.

On behalf of BSGAR, I would like to thank all of our speakers for their participation in this year's programme, all of the delegates who submitted abstracts or cases and all of the sponsors, who are generously supporting the meeting.

I am delighted that we are based this year in two of Bath's most historic venues, with our main meeting taking place in the Assembly Rooms and our Course Dinner being held in the iconic Roman Baths and Pump Room. There is also much else to enjoy around the city, particularly in terms of history, architecture, culture, dining and shopping - all within easy walking distance.

Times remain challenging in many Radiology departments around the country and so I hope that as well as the educational benefits of the meeting, there will also be plenty of opportunity to unwind, catch up with friends and enjoy the city.

Once again, I extend a warm welcome and hope you have a stimulating and enjoyable meeting.

Dr Huw Roach

CLIVE BARTRAM

Clive Bartram Prize for Best Oral Presentation

Professor Clive Bartram was one of the founding fathers of BSGAR, serving on its inaugural executive committee when the organisation was known as SIGGAR. Clive gave the inaugural Richard Farrow Memorial Lecture in 2006, and was the second Honorary Member named by the Society. Clive was Consultant Radiologist at St. Mark's Hospital, City Road, latterly at Northwick Park, for all of his Consultant career in the NHS. He was distinguished by an ability to conduct research of the highest calibre (publishing in the Lancet and New England Journal), combined with outstanding clinical work. He inspired many junior radiologists (surgeons & gastroenterologists) to attempt the same. He is best known for the invention of anal endosonography, which transformed care for patients worldwide. His clinical and research insights have proven irreplaceable since his retirement from the NHS.

BSGAR MEMBERSHIP

The following types of Membership to the British Society of GI and Abdominal Radiology (BSGAR) are available:

FULL MEMBERSHIP AND JUNIOR MEMBERSHIP

Full membership is open, by application to the executive committee, to all practising or retired radiologists in the UK who have a special interest in Gastrointestinal and Abdominal radiology. Junior membership is open to specialist registrars training in the UK, interested in GI radiology. All full and junior members have voting rights at the Annual General Meeting. The yearly membership fee is £50 to help cover administrative expenses. Members are eligible for reduced registration fees at the BSGAR Annual Meeting.

ASSOCIATE MEMBERSHIP

Associate membership is open, by application to the executive committee, to any radiographer with a significant role in GI and Abdominal Radiography who wishes to take an interest in the group's activities. Associate members do not have voting rights at the Annual General Meeting but have full access to all members' only sections of the BSGAR website. We do wish to have active communications with all our professional colleagues, and encourage interaction in support of the Society's interests and the activities of its' full and junior members. The yearly membership fee is £25 to help cover administrative expenses.

OVERSEAS MEMBERSHIP

Overseas membership and overseas associate membership are open, by application, to the executive committee. Overseas membership is open to practicing or retired radiologists whose practice is based outside the United Kingdom and who have a special interest in GI Radiology. Overseas associate membership is open to nurses and specialist radiographic practitioners whose practice is based outside the United Kingdom and who spend the majority of their time in abdominal or GI radiology. Overseas members do not have voting rights at the Annual General Meeting nor access to the membership forum or database. There is a yearly membership fee to cover administrative expenses. The annual fee ranges from £1-£25 and will be determined in proportion to relative earnings in the applicant's country.

Applications can be made online at www.bsgar.org

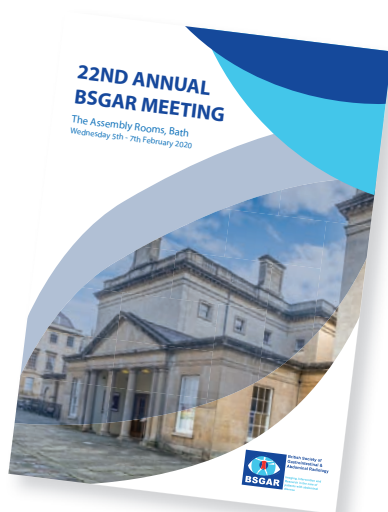

Alternatively you can speak to Liz Jones or the BSGAR Secretray, Raneem Albazaz at this meeting.
