Missing the Gorilla: Radiology, Inattentional Blindness and the Law

Paul Sankey

Partner and Senior Solicitor, Enable Law

Paul Sankey is one of the leading clinical negligence experts in the United Kingdom, and has a particular interest in and knowledge of how the law applies to radiology.

How do radiologists get into trouble? What is an excusable mistake? How are radiologist mistakes viewed by the law? And what can we do to protect ourselves?

Following on from Professor Wolfe's Christmas Lecture about *why* radiologists miss things, Paul will look at what can happen when radiologists *do* miss things. Paul will cover these issues and others, promising that in his talk you will learn everything you need to know about radiology and the law.

Paul is a fantastically engaging speaker and is well known from his appearances on television and in the media.
