

# PANC-CYST UK:

## Understanding the delivery of pancreatic cyst surveillance in the UK

### THE PURPOSE

#### Understanding National Variation

This survey aims to identify how pancreatic cyst surveillance differs across the UK to help develop a unified evidence base.

#### Informing Future Guidance

Results will be used to create UK-wide clinical guidance and will be presented at national conferences and in peer-reviewed journals.

### TARGET AUDIENCE

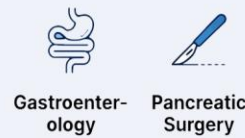

#### Eligible UK Consultants

- Consultants practicing in Radiology, Gastroenterology, or Pancreatic Surgery.

#### Specialist Nurses

- Nursing professionals directly involved in the delivery or coordination of pancreatic cyst surveillance pathways.

### SURVEY LOGISTICS

#### 8-10 Minutes to Complete

The survey is designed to be efficient, requiring a short time commitment to capture essential practice data.

#### One Response Per Trust

To ensure accurate data mapping, it is recommended that only one coordinated response is submitted per NHS Trust.

### TAKE ACTION

**VISIT [www.bsgar.org](http://www.bsgar.org)**

Access the survey and additional participant information directly through the official BSGAR website.

**CONTACT Dr Anita Wale**

For further information or queries regarding the study, please contact the lead researcher at [research@bsgar.org](mailto:research@bsgar.org).
