

The Department of Imaging Services at Royal Perth Hospital (RPH) welcomes Senior Registrars and Fellows ('Specialists-in-Training') from other countries to work and train with our local Senior Registrars and Provisional Fellows in our stimulating and challenging tertiary hospital environment.

All doctors must be registered by the Medical Board of Australia (MBWA). There is a lot of relevant information about the registration process at these websites:

English proficiency is a requirement for any medical registration in Australia and an explanation for this can be found at the following website:

While the Medical Board of Australia requirements for documentation are substantial, they are also readily achievable.

Please read through all the paperwork. I hope this information has been of assistance but please don't hesitate to contact me if you require anything further.
