Delivering the Paperless and Filmless Hospital

Tuesday 5th July 2016 Manchester Conference Centre, Manchester

"We have the chance to make NHS patients the most powerful patients in the world - and we should leap at the opportunity. Within the next 5 years our electronic health records will be available seamlessly in every care setting... Get this right and it is no exaggeration to say that the impact will be as profound for humanity in the next decade as the internet has been in the last." Jeremy Hunt, Minister of State for Health, 16 July 2015

Chaired by Dr Rhidian Bramely, Chief Clinical Information Officer, Consultant Radiologist and Clinical Director of Radiology at the Christie Hospital NHS Foundation Trust, this one day conference will examine how to work with digital imaging, radiology information systems and PACS to deliver the national ambition of a paperless and filmless NHS.

The conference will address national developments, new models of radiology care including an update from the radiology vanguard site which emphasizes a move towards a collaborative clinical network approach, getting the most out of RIS and PACs through effective workflow and systems design, and how to integrate them with other Trust systems and Electronic Patient Records. There will be a focus on improving the clinical end user experience, interoperability standards, sharing radiology images across organisations, information governance, the role of specialty systems, and the role of information systems in moving towards a 7 day service and delivering real time bedside imaging to improve patient care.

Follow the conference on Twitter #PACS2016

09.00-10.00 Supplier Showcase

The supplier showcase will be optional for delegates to attend and will include five 10 minute presentations from the key Radiology Information Systems & PACS suppliers

The benefits of using 4ways to provide remote radiology reporting

Ally Devine

Business Development Manager
4 Ways Healthcare

- why use 4 ways
- quality service
- flexibility
- UK based radiologists
- support as and when you need it

The Future of (C)RIS

Brian Smee

National Sales Manager
Healthcare Software Solutions

- HSS – market leading suppliers of RIS to the NHS and private healthcare
- providing clear evidence that RIS remains a vital part of radiology services
- demonstrating how RIS will evolve over the next 5 years

Collaborative diagnostic networks – what is required apart from standard IT solutions?

Claudio Silvestrin

Business Development Lead
TMC - TELEMEDICINE CLINIC

- radiology networks are recommended by the RCR as they make best use of existing resources
- most radiology network concepts don't work as they focus on image sharing but fail to provide tools and services to manage the network
- TMC is managing the largest reporting network in Europe and has a successful track record of setting up networks in the UK and Sweden
- with our IT platform and know-how we help you in setting up and managing a truly working sub-specialist network

Enabling collaboration through Enterprise Imaging

Gareth Lawrence

Solution Manager
GE Healthcare IT

- trends impacting healthcare efficiency
- enterprise Imaging across the patient journey
- collaboration: Connecting people and systems
- technology enabled redesign

09.00-10.00 Supplier Showcase

The supplier showcase will be optional for delegates to attend and will include five 10 minute presentations from the key Radiology Information Systems & PACS suppliers

10.35 Chairman's Introduction

Dr Rhidian Bramely

Chief Clinical Information Officer, Radiology Clinical Director
Christie Hospital NHS Foundation Trust

10.40 Delivering the Paperless and Filmless Hospital

Dr Stephen Fenn

Consultant Radiologist
Hampshire Hospitals NHS Foundation Trust

- the role of RIS and PACS in delivering the goal of a paperless NHS: integration with Electronic Patient Record Systems
- supporting a 7 day health service
- further opportunities for redesigning radiology services: including extending services to weekends and out of hours, and home reporting
- what the future holds: new generations of PACS and imaging informatics

11.10 Speciality Radiology and PACS: Cardiology and Oncology

Dr Nicola Strickland

Consultant Radiologist
Imperial College Healthcare NHS Trust, London

- what is the role for speciality radiology and pacs?
- key issues in cardiology
- key issues in oncology
- what does this mean for remote working and workflow?

11.40 Question and answers, followed by coffee and exhibition 11.40

12.00 Delivering the National Integrated Medical Imaging Solution to the Republic of Ireland: procurement and implementation lessons

Keith Morrissey

NIMIS Project Lead
Trinity College Dublin

- project introduction: ROI's vision for NIMIS
- Implementation: deploying the world's largest national medical imaging solution successfully
- current situation: NIMIS Today
- the future for NIMIS: what's next?

12.30 Demand and capacity management in radiology

Dr Ash Bhagat

Consultant Radiologist
West Hertfordshire Hospitals NHS Trust

- concepts of Demand and capacity mapping.
- mapping Demand and Capacity.
- demand and capacity forecasting.
- business Intelligence and Data driven analytics.
- new tool to achieve this and will work in conjunction with PACS and RIS systems.

13.00 Question and answers, followed by lunch and exhibition 13.10

14.00 New Models of Radiology Care: Improving clinical collaboration within radiology services and delivering access to patient radiology images at the point of need

Jonathan Barber

Radiologist
Bradford Teaching Hospitals and
Senior Member
The Yorkshire Collaborative

- working together to deliver access to radiology images at the point of need
- developing a shared technical system to support network wide clinical care
- developing new arrangements between hospitals for sharing staff, services and resources to improve the quality of care provided to patients

14.30 Implementing and getting the most from Teleradiology

Dr Stephen Davies

Consultant Radiologist, Medical Director
Medica

- the role of teleradiology in digital imaging
- night-time emergency teleradiology: practicalities and governance
- teleradiology in practice: our experience
- current issues and moving forward

15.00 Question and answers, followed by tea and exhibition

15.30 The integration of medical imaging with the whole EPR: towards real time bedside imaging

Dr Rhidian Bramely

Chief Clinical Information Officer, Radiology Clinical Director
Christie Hospital NHS Trust

- medical imaging within the context of EPR
- integration and clinical engagement
- critical success factors

16.00 Image and Data Migration and Management

Dr Neelam Dugar

Consultant Radiologist & Clinical PACS Lead
Doncaster & Bassetlaw Hospitals NHS Foundation Trust

- challenges and opportunities for image migration
- data storage: now and in the future
- data storage and sharing across organisations

16.30 Question and answers, followed by close at 16.40
